

 **measure the facts**

Industrial Process Instrumentation:

- Flow Measurement and indication
- Level Measurement and indication
- Analytical Sensors and measuring systems
- Pressure / dP
- Temperature

All-in-One Control, I/O, and Networking:

- OCS (PLC/HMI/IO/Networking)
- Remote I/O
- IIoT Products
- Control Software

In Line and Laboratory Analyzers

- Process Refractometers for Brix, nD, or % concentration
- Beverage Analyzers for BRUX, Diet, and CO2
- Beer Analyzers for alcohol, Plato, Extract CO2 and O2
- Lab Refractometers for Brix, nD, HFCS, or user defined scales

Free Chlorine and Monochloramine Analyzers:

- 6 Parameters 1 sensor
- No Maintenance for 12 Months
- No reagents or Membranes
- Self Cleaning
- Installs Virtually Anywhere

Expertise including all-in-one PLC/HMI controls, advanced instrumentation, expansion & remote I/O, easy-to-use control software and complete process monitoring allows FTSG to create true technical solutions that reduce risk, improve efficiency, and simplify operations.

Our team serves Indiana, Ohio, Kentucky, Michigan, and Illinois with our headquarters in Indianapolis, IN.

Azbil North America, Inc.

- Pressure & dP Transmitters
- Insertion and Inline Vortex meters
- Insertion Turbine meters

- Signal Conditioning
- Temperature Transmitters, Displays, Intrinsic Safety
- Signal Isolators

- Gas Sensors, Gas Detectors, Flame Detectors
- Odorant Monitors, Sample Draw, Calibration Supplies
- Process Monitors, Wireless Gas Detection Systems

- Gas Sensors, Gas Detectors, Flame Detectors
- Wireless Gas Detection systems and alarming
- OtisLink Gas monitoring Telemetry system

- Open channel and partially full pipe flow meters
- NSF Approved Insertion Electromagnetic flow meters

- Area Velocity Flow Measurement
- Open Channel Flow, Clamp-on flow measurement
- Radar Level Measurement, Sludge level measurement

- pH, ORP, Conductivity, DO
- Free Chlorine and Chlorine Dioxide
- UV Transmittance

- Remote Monitoring and Control Products
- IQ2 Cloud Based IIoT platform and dashboarding
- Remote pressure monitoring solution for leak detection

- AquaMetrology Systems Water Quality Analysis
- Real Time inorganic, organic, and trace metal contaminants
- THHM Monitoring Solutions

- Thermal mass flow meters and switches
- Low flow liquid and gas meters with control
